

Large capacity fuel tank with cabinet & roller shutter door

[Product Description]

8700 litre fully bunded fuel storage tank with a fuel dispensing cabinet, lockable anti-vandal door and strong steel base. The 8700 litre bulk fuel tank features a double cylinder construction using 4mm steel throughout. A removable manway provides access to the inner tank. The tank can be lifted using either the two lifting eyes or the forklift pockets.

[Specification includes]
