

# Steel Vertical Bulk Diesel Tanks

## Product Information

Vertical, cylindrical bulk diesel tanks in capacities 4,200 & 5200 litres. Heavy duty double cylinder design with an all-steel construction. Large fuel cabinet provides access to tank connections and dispensing equipment. Fully bunded and pressure tested inner tanks; built in accordance with the latest environmental regulations. For use with diesel and gas oil.

## Key Features

- ▶ All steel construction and lockable doors for high security
- ▶ Vertical design reduces footprint - ideal for storing fuel in small spaces
- ▶ Low cost and quick to install - tanks are self-supporting and do not require any civils work prior to installation

## Standard Specification

- ▶ Double vertical cylinder design with all-steel construction
- ▶ Fully bunded pressure tested tank in accordance with regulations
- ▶ Bolted inspection hatch for cleaning and inspection
- ▶ Either 56lpm 230v Panther or 40lpm 12v Bypass Pump with K33 flow meter
- ▶ 3m x 1" fuel delivery hose and manual trigger
- ▶ Fuel filter with clear plastic bowl, water drain and replaceable element
- ▶ Lockable cabinet for security
- ▶ Sturdy base with transport tie down points
- ▶ Unitel fuel gauge; Automatic suction breather
- ▶ Shot blasted to SA 2.5 and painted in 2-pack polyurethane finish

---

## Available Dispensing Options

230v PIUSI Panther Fitted with K33 Flow Meter

12v PIUSI Bypass Fitted with K33 Flow Meter

---
