

Manual Rewind HV Fuel Hose Reels

AIR-WATER-OIL-DIESEL (max 700psi)

Introducing the new High Visibility, High capacity CRWM series of manual rewind hose reels. Constructed in a heavy gauge steel and finished in a durable, high gloss, powder coated paint. Strength, performance & reliability are the signature features of this series of reel, along with the professional, modern look. Capacities range from 20m x 1/2" to 30m x 1" of internal bore hose, with working pressures up to 700psi. The compact size both height and width make this range of reel a must for applications where longer & larger hoses are required.

FEATURES:

- Constructed in heavy gauge mild steel
- Highly visible yellow powder coated finish
- Rolled and ribbed side discs for strength and rigidity
- Large 4-way roller guide to reduce hose wear
- Floor or wall mounting options
- Smooth and positive direct crank design
- Capacities up to 40m

Supplied as bare reel, hose available at extra cost
